Claims

Any damaged goods or shortages must be notified within 5 days of receipt and non-delivery within 7 days of invoice date.

Liability

We are not liable for lost, damaged, late or non-delivery of an order due to circumstances outside our control.

Whilst every effort is made to produce the exact tones of the mouldings featured throughout this catalogue, printing limitations can effect the illustrations shown. For actual moulding samples please contact us.

Returns

Goods may be returned for valid reasons but there is no automatic right to return unwanted items and we reserve the right to levy a handling charge plus carriage should we accept the goods back. Mitred lengths are not acceptable for credit.

Credit Terms

- 30 days after date of invoice.
- We accept credit card payment.
- We can deliver either by C.O.D. in the London area or by carrier after receiving credit card details or cheque payment, if you do not have an a/c.
- If you wish to open one, we will forward you the necessary forms

Pricing Guide

Please note that whilst the price list was correct at the time of print, due to factors, often beyond our control, they are for guide purposes only, and may vary at the time of placing an order. We reserve the right to make any adjustments as necessary. For an exact quotation, please ask your representative or contact us directly.

Removable tape

- * Ideal for arts and craft as it can be used to temporarily secure mats or stencils
 - * Also for temporary layouts or repairs, marking or delicate surfaces
 - * Can be repositioned cleanly once applied, again and again
 - * Easily applied & invisible and can be written on while it does not ghost when photocopied
- RSMT/0019 - 19mm (wide) x 33m (long) tape @ £3.95 ea.

Invisible Tape

- * A permanent long life repair tape, matte finish, but virtually invisible when applied.
 - * Ideal for paper repairs and sealing such as mending documents, sealing envelopes and securing photos or graphics to pages being photocopied
 - * Can be written on, typed on and photocopied without leaving a ghost mark.
- PSMT/0019 - 19mm (wide) x 33m (long) tape @ £2.75 ea.

Easy Tear Clear Tape

- * A strong sticky tape, perfect for all sealing & repairing needs
- * High quality, very transparent tape, ideal for everyday use.
- * Fed up with unwieldy scissors and tangled tape? This is easy to handle, unwind & tear
- * Provides a strong permanent bond as it's coated with a durable photo safe adhesive
ETCT/0019 - 19mm (wide) x 30m (long)
@ £0.90 ea

Pre-printed 'FRAGILE' Tape

FRAG/0048 - 48mm (wide) x 66m (long) tape @ £1.50 ea.

- * High Quality, low noise, polypropylene packaging tape
- * Pre-printed with the word "FRAGILE" in red on a white background
- * No need for labels, so saving time and money

Self Adhesive Linen Hinging Tape

- * The very fine acid-free (neutral pH) linen cloth is flexible, yet very strong.
- * A pressure sensitive acrylic adhesive is permanent gaining strength overnight
 - * It is non-ageing and will not turn yellow.
- * Can be removed with the use of mineral spirits.
- * Each tape is individually boxed and can be used as a dispenser
- * Ideal for hinging a mount to a backing board or for attaching art
L533/1015 - 32mm (wide) x 10m (long) hinging tape @ £13.00 ea.

1. ARCHIVAL TAPES

Self Adhesive Hinging Tissue

- * This is a white, very fine tissue, with archival quality, including being acid & lignin free
 - * It's long fibres gives adequate strength for most objects
 - * The pressure sensitive acrylic adhesive is permanent, non-ageing & won't yellow
 - * Can be removed with the use of mineral spirits.
 - * Each tape is individually boxed and can be used as a dispenser
- Tear to length. Create the hinge applying 1/4" or less to the back of the art
L533/0125 - 25mm (wide) x 10m (long) hinging tissue @ £10.50 ea.

Gummed Paper Hinging Tape

- * The white paper is acid-free, lignin free and buffered to a pH of 8.5 with a 3% calcium carbonate
 - * The excellent strength of this water activated adhesive (Ph. of 7) will support all but the heaviest works of art, holding the artwork firmly without any slipping
 - * Use for:- (1) hinging prints to mounts
 - (2) repairing books and artificial artefacts
 - * To apply, tear desired length, moisten and wait for adhesive to become thoroughly sticky before positioning
- L533/0751 - 25mm (wide) x 40m (long) hinging tape @ £8.50 ea.

Gummed Linen Hinging Tape

- * A fine acid-free cloth tape with a water activated neutral pH adhesive which provides excellent strength through its high tack and lay flat properties
 - * It is therefore ideal for hinging heavy art
 - * Other uses include:- (1) frame & mount hinging, (2) reinforcing books or paper items, (3) repairs
 - * To apply, tear desired length, moisten and wait for adhesive to become thoroughly sticky before positioning
- L533/1050 - 25mm (wide) x 46m (long) hinging tape @ £27.50 ea.

Transparent Mending Tissue

- * Same as transparent tissue L533/0198, but only 13mm wide which is better for smaller repairs
 - * This acid-free, lignin-free, very thin and extremely transparent pressure sensitive and self adhesive (coated on one side) tissue is non-yellowing and permanent
 - * Ideal for repairing tears and other damage to paper, art, documents, maps etc.
 - * Also useful for:- (1) reinforcing, (2) hinging
- L533/0017 - 13mm (wide) x 15m (long) mending tissue @ £8.50 ea.

Document Repair Tape

- * This very thin & extremely transparent pressure sensitive and self adhesive (coated on one side) tissue is non-yellowing, removable with solvents, and has a neutral pH
 - * Same as transparent tissue L533/0017, but 25mm wide which is better for larger repairs
 - * Each tape is individually boxed and can be used as a dispenser
 - * Ideal for repairing tears and other damage to paper, art, documents, maps etc.
 - * Approved by several government agencies (because of the adhesive used) which is why it is popular with conservators and collectors.
- L533/0198 - 25mm (wide) x 46m (long) repair tape @ £17.00 ea.

Frame Sealing Tape

- * Developed specifically to seal a backing board to a frame
- * On one surface is a grey paper which is acid-free, lignin free and buffered to a pH of 8.5 with a 3% calcium carbonate
- * The core is made from an aluminium foil which prevents harmful elements seeping through
- * On the other side is an acid-free, acrylic, pressure sensitive non-yellowing adhesive
- * Permanent in nature, it is strong enough to adhere to raw wood and will bond to most surfaces (including wood, boards and metals). Also conforms well to irregular surfaces
- * Can be removed with the use of mineral spirits.
- * Each tape is individually boxed and can be used as a dispenser

* Only apply to raw wood and never to artwork
L387/0151 - 32mm (wide) x 30.5m (long) @ £11.50 ea.

See-Thru Archival Mounting Strips

- * Use these mounting strips for safe mounting of artwork onto a mount.
 - * Consists of a strip of archival polyester (Melinex) with a narrower strip of acid-free self adhesive backing paper
 - * Therefore, no adhesive ever comes in contact with the artwork.
 - * To use, position artwork onto an acid-free board. Cut strips to size (1"-2" is generally sufficient). Peel off backer paper exposing the adhesive and position around artwork
 - * Quantity per box = 60pcs
- L533/4015 - 102mm/4" mounting strips (long) @ £14.00 ea.

Preformed Mounting Corners

- * These are pressure sensitive with a safe acrylic adhesive backing
 - * Made of archival polyester (Melinex).
 - * Virtually invisible and never comes into contact with the artwork
 - * To hold your photos and documents firmly, just press into place
 - * Quantity per box = 240pcs
- L533/0020 - 13mm (wide) corners @ £7.80 ea.

See-Thru Mounting Corners

- * These crystal clear strips are pre-scored for easy folding
 - * Made of archival polyester (Melinex).
 - * At each end is an area of self-stick adhesive, which is 3M's 415 tape, one of the few institutionally recognized tapes
 - * This is an easy and practical method allowing safe mounting of almost any paper item especially bulkier items such as magazines and no seams to split.
 - * To use, fold into shape, then position over the corners of the art and finally remove backing papers from each of the corners
 - * No adhesive ever comes in contact with the artwork.
 - * weight = 0.09kg
 - * Quantity per box = 100pcs
- L545/2336 - 16mm (wide) corners @ £15.00 ea.
L545/2337 - 22mm (wide) corners @ £15.50 ea.

- * Low stretch 16 plait braided nylon cord that doesn't fade
- * The weight of the picture should be no more than 1/4 of the breaking strength. This allows for sudden or shock loading of the picture onto the wall
- * Ensure it is tightened as much as possible onto the fittings. This prevents it coming loose resulting in possible damage not only to the frame but also to other objects nearby (like someone's head!)
- * Take care to select the correct fitting that will hold the weight of the frame.
- * 4 widths available, which are used depending on weight of frame to be hung

	length (mtrs)	diameter (mm)	breaking strength (kgs)	recommended maximum weight of complete frame (kgs)	price (ea.)
PC/2N	132	1.5	45	11	£ 3.80
PC/4N	132	2.0	100	25	£ 5.30

PC/10N	132	3.6	337	85	£13.00

- * When hanging a picture, the choice of picture wire (or cord) is very important as you do not want the wire becoming undone or breaking, resulting in the frame falling off the wall!
- * We offer 3 types:- a) All Brass ; b) Stainless Steel ; c Plastic Covered Stainless Steel
- * There is a rule of thumb when deciding which wire to use. It is recommended that the breaking strength (tensile) of the wire should always be double that of the weight of the image to be hung
- All Brass
 - * Fine brass (golden colour) strands wrapped around a steel wire core for extra strength
 - * Easy to twist and tie into a secure knot
 - * Quite often, the wire is doubled, in order to increase the hanging load

- Stainless Steel**
- * Resistant to corrosion, stainless steel (silver) wire
 - * Easy to bend, wrap and tie
 - * Won't mark walls or framer's hands

	length (mtrs)	breaking strength (kgs)	max hanging weight (kgs)	thickness of wire (mm)	price

SSPW/0005	56	110	55	3.78	£12.50

- Plastic Coated Stainless Steel**
- * Adds a clear adherent plastic coating over the stainless steel (silver) wire
 - * Resistant to corrosion
 - * Designed to make wiring a picture faster and easier
 - * The plastic coating helps protect fingers from sharp ends and won't mark walls

	length (mtrs)	diameter (mm)	breaking strength (kgs)	price (ea.)

- * This is a carriage paid service because it uses our own van delivery. If you are outside our area, then a carriage charge is then added
- * If you have sent your blades to us loose wrapped, then because of Health & Safety Regulations, we must return them to you in a box. We will contact you first to inform you of this extra cost (in case you might prefer to collect) and then pack them in a basic styrofoam box (OMAC/0033). A charge of £8.50 for the box will be added, but of course the box is then yours for future use

MAC/02 - Pair of Standard Blades @ £209.00

* Supplier Code: 0301

Mini Single Hole

* Slightly smaller than the standard one and therefore cheaper.

Otherwise, it does the same job

			pcs/box	£/100pcs	1000+pcs
00PS/0104	Zinc plated ; 4mm Ø hole		200	£1.80	£1.44

00PS/0029	Brass plated ; 4mm Ø hole		200	£3.40	£2.90

Double Hole

* This is for the heavier frame. When in doubt, use this one

			cs/box	£/100pcs	2000+pcs
PS19	Zinc Plated		100	£4.95	£4.20
00PS/0045	Brass Plated		100	£5.40	£4.60

One piece Mini D Ring

* Pressed out as one piece with an inner rim which is extruded and so prevents chaffing

* Although it lays flat, it can be easily bent to allow cord to pass through.

* It is a little flimsy, so always use on lightweight frames.

* Why use? The price is cheap

			pcs/box	£/100pcs	1000+pcs
PS14	Zinc plated		100	£1.10	£1.00

Larger hole 7mm Ø ; smaller 4.5mm Ø

“Easy” Slipover Hanger

* These are slipped over the top 2mm or 3mm backing board and are then threaded with cord or wire, which leaves them ready to hang on a wall

		cs/box	£/100pcs	1000+pcs
PS15	19 x 12mm steel - for 2mm board	100	£3.60	£3.00
PS16	19 x 12mm steel - for 3mm board	100	£3.60	£3.00

Screw Eyes

* Screw into the back of a frame and then thread some cord or wire through it, to hang on the wall

		pcs/box	£/100pcs

PS25	20 x 2 brass plated	500	£1.05
PS23	25 x 4 brass plated	500	£1.50

Screw Rings

* This is a screw eye with a split ring attached

* Cord is threaded through the ring and is tied to it. This results in the cord hanging further away from the frame

		pcs/box	£/100pcs	2000+pcs
PS30	Nos. 0 in copper (small)	200	£2.50	£2.00
PS31	Nos. 2 in copper (medium)	200	£2.75	£2.25
PS32	Nos. 4 in copper (large)	200	£3.00	£2.50

Heavy Duty Strap Hangers

* If you are unsure that D rings, screw eyes etc are heavy enough to take the weight of a frame, then use these

* Made from steel and zinc plated, these heavy duty hangers are made with a solidly pressed D ring with a strap folded around one side. This makes it almost impossible to come open

* For large, heavy frames, it is advisable to use these hangers with 00PS/0042

		pcs/box	£/100pcs
00PS/0094	26 x 14mm 1 hole	100	£8.50

“Regular” Slipover Hangers

* These are termed “slipover” because they are manually placed over the top of the hardboard.

* They provide a quick, easy & cost effective way of hanging pictures.

* They are all black in colour and 16mm in size

* The hardboard thickness determines which hanger to use.

MAC/1427 Board up to 3mm thick

pcs/box 1000	£/100pcs	£/1000pcs
	£1.35	£1.25 (5000pcs)

* Use on normal rebate frames. The hook is flat & so more frames can be packed/stacked without scratching

		pcs/box 1000	£/100pcs	£/1000pcs
MAC/1429	Board up to 3mm thick		£1.35	£12.50 (8000pcs)

Toly Hooks

- * These are ideal for use on hard wall surfaces such as concrete or bricks etc.
- * Hard steel pins already located in the plastic hook are hammered into the wall with little effort once the hook is positioned. With minimal effort, the hook can be removed with little or no damage to the wall
- * However, we do not recommend you use these with heavy or valuable items. Use with cord rather than wire

		pcs/box	£/100pcs
PS62	14mm Ø x 22mm (smallest size)	100	£10.50

Heavy Duty Wall Hooks

- * To hold heavy frames
- * Screw onto the wall and in pairs to ease the weight should you wish to be safe
- * Cord or wire can then be looped over it
- * Alternatively, these are made to be used in conjunction with heavy duty strap hangers
- * The PS/0055 and /0070 have the same dimensions except the latter has a wider lip so as to clip onto the PS53

00PS/0070	50 x 14mm steel zinc plated ; 4mm Ø ring	pcs/box	£/100pcs
		50	£8.50

- * There is a centre slot which can be adjusted up to 20mm for ease of locating and levelling and 2 50mm holes either side of the slot for final fixing

- * Use with strap hanger PS69 to attach frames to the wall

Security Fittings

* In order to ensure the frame stays securely on the wall, this is the system for you!

* One or two brackets are screwed into the back of a wood moulding. A 'T' headed screw with the help of a wall plug is screwed into the wall. The bracket which has a slot in it, then locks on to a 'T' headed screw in the wall. The security fixing key is then used to turn and lock the screw. It can later be used to unlock as well

* Made from steel and zinc plated (not wall plug)

MAC/448

* In our opinion, the "FlexiMaster" is the best manually operated framing gun for flexible points on the market

* Use when regularly changing artwork and photos are required

Unique features of the manual 'FlexiMaster'

(a) It's designed to fire flexible framing points (MAC/449) quickly and easily.

(b) Supplier Code: 07-700

(c) Colour: Green

MAC/448 - Fletcher "FlexiMaster" Tab Gun @ £72.20

MAC/313

* This gun multi-tasks as it not only can be used as a normal framing tab gun, but is also excellent for:-

Joining 2 frames together such as making shadow boxes or when inserting a slip into the frame's rebate

MAC/313 - Fletcher "MultiMaster" Tab Gun @ £91.90

OMAC/0770

OMAC/0770 - Fletcher Pneumatic "FrameMaster" Tab Gun @ £440.60

* This is the pneumatic version of the manual MAC/280 and has all the same features

* Suitable for bespoke work but not for mass production

MAC/280

* In our opinion, the best manually operated gun for rigid points on the market firing both framing & glazier points

* Achieves professional quality when you want to permanently hold glass, artwork and backing board securely in place

Unique features of the manual 'FrameMaster'

(a) It is well designed with few moving parts, so less to go wrong.

(b) Generally, it fires 16mm Framers Points (MAC/281), but reversing the magazine allows it to fire 9.5mm Glazier Points (MAC/282) as well

(c) Supplier Code: 07-500

5) 15mm Cassese "Regular" Flexipoints (Gun OMAC-0651)

* Although recommended to be used with Cassese flexiguns, these universal flexipoints can also be used on many other brands (not Fletcher) whether manual or pneumatic

* Made from a patented steel alloy which bends easily and many times without breaking

* Coated with a dry adhesive, designed not to be left in the shooting head & so avoids jamming

Simons Code	Supplier Code	Length (mm)	Thickness (mm)	Pcs / box	Colour	Price (box)
OMAC/0788	Flexi 15B	15	0.35	15000	Black	£30.00

6) Recommended Flexible points for the pneumatic "FlexiMaster"

* Whilst it can use the same Framers points (MAC/449) as the manually operated gun

OMAC/0836	08-995C	16 (5/8")	0.41	12000	Black	£36.25

7) Recommended Rigid points for the Pneumatic "FrameMaster"

* Whilst it can use the same Framers points (MAC/281) as the manually operated gun, it is more economical to use the bulk packed box of 12,000 points

Simons Code	Supplier Code	Length (mm)	Thickness (mm)	Pcs / box	Colour	Price (box)
OMAC/0771	08-985	16 (5/8")	0.66	12000	Silver	£41.25

MAC/264	5	15	0.35	10000	Black	£18.00

9) Universal Rigid Tab (Use with MAC-634) Omer 53 Gun

Simons Code	Width	Length (mm)	Thickness (mm)	Pcs / box	Colour	Price (box)
MAC/265	5	15	0.40	10000	Silver	£18.00

MAC/634 - Simonart "Autobend" Omer 53 (Flexi/Rigid Tab Gun) @ £450.00

(a) Tabs automatically bends, Most guns fire the tab into the frame at an angle and this one does as well. But then after inserting, a piston automatically bends down the points so that they become flush with the surface of the backing board. So, no need to flatten it down by hand.

(b) Another unique feature is the blade which is secured by a part inside the mechanism and prevents it from vibrating. This protects it during operation and therefore avoids jamming and breakage of the blade
