Multipin, Molgra, Proturmer, Strappit, Orteguil &amp; Framers Corner. Until recently, all Cassese underpinners were loaded with wedges using a cartridge system. So the Cartridge Wedge Range was the only recommended wedge for Cassese underpinners. However, the newly introduced Cassese 'UNI' Range of Underpinners are loaded using 10.5mm wide strip wedges and not cartridges. This means the Cassese 'UNI' Range of wedges are also recommended to be used with the Cassese 'UNI' Range of Underpinners</p>	0HAC/1005	Soft Wood, White Boxes, 8000	1 Special		£9.00
