## Building on our history

Simons is a long established family business founded in 1900 by Davis Simons after emigrating from his native Russia. He created a hard working, energetic company which is still apparent today. Succeeded by his son, Jack, the company was first established as a manufacturer and supplier to the reproduction furniture industry.

His three sons, Stephen, Howard and Brian continued the same work ethic and entered into the picture framing industry in the 1970's.

Occupying some 400,000 sq. ft, we are now established as market leaders. In the 1980's Emafyl began with its production of extruded polystyrene & in 1996 received the Queen's Award for Export Achievement.

Since then, the 4th generation of Daniel, Anthony and Robert have now joined the company to continue the family commitment and service to our customers well into the 21st century.

We never forget, that a company is only as successful as it's customers.
